

**LEAD & COPPER RULE MONITORING AND REPORTING VIOLATION  
MANDATORY LANGUAGE - TIER III**

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

**CITY OF ORANGE PWS 1810004** has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing (or did) to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 1<sup>ST</sup> 6M2020, we did not monitor or test for LCR and therefore cannot be sure of the quality of your drinking water during that time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for [these contaminants], how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples were [or will be] taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were or will be taken
<i>LCR SAMPLE TAP 1<sup>ST</sup> 6M2020</i>	60 / 6 months	0	JAN 01, 2024 – JUNE 30, 2024	12/16/2020

**What is being done?**

In order to return to compliance our system had to collect a complete set of sixty (60) lead and copper sample taps and send the results to TCEQ and we did and returned to compliance as of 12/16/2020.

We are working to correct the problem. For more information, please contact:

Water System Official: Jeremy Langley
